ABOUT FAB PRODUCTS

Welcome to Fab Products, a leading provider of architectural hardware products that add a touch of elegance and sophistication to spaces. With an extensive range of exquisite brass handles, knobs, tiles, idols, brackets, khutti, conceal handles, and more, fab products offers a wide variety of options to enhance the beauty and functionality of interiors.

Fab Products was founded by Mr. Kumar in 1996 with a vision to provide top-quality architectural hardware solutions to customers. What began as a modest venture operating in a 200 sq.ft area has now blossomed into a thriving business, celebrating its silver jubilee. Today, the headquarters boasts a spacious 2000 sq.ft office, serving as the hub of operations and a testament to Fab's growth and success.

From humble beginnings, Fab Products has come a long way. The company started with just six products, but thanks to a commitment to innovation and customer satisfaction, there is now a comprehensive catalog of over 1000 products. Each item is carefully hand-crafted by our skilled artisans with attention to detail, reflecting the beauty of traditional designs combined with contemporary functionality.

Ensuring durability and longevity, Fab Products maintains an in-house manufacturing unit and rigorous quality control measures. With an exceptional range of architectural hardware, we aim to fulfill design needs and elevate spaces into works of art.
